Date: 23.05.2022

The Deputy Commissioner
Kendriya Vidyalaya Sangathan
All Regional Offices

Subject: Academic Planning and Calendar of Activities 2022-23-reg.

Madam/Sir,

Academic planning and its meticulous implementation by the educational institutions are an essential requirement for the attainment of learning outcomes by its students. It is more so for the Kendriya Vidyalayas as they strive to achieve excellence in the demanding task of educating the young children in their care. The normal physical functioning of schools in the last two academic years being curtailed, engagement of students with the tasks of learning were carried out in the blended mode. Now that the normal functioning of schools has commenced in almost all the places, it is essential that we carefully chalk out a plan that would take into account the consequences of the limitations to the curricular transactions in the last couple of years and lead the students towards the fulfillment of aims and aspirations of NEP-2020.

You may recall this office letter dated 24 05 2021 on the subject of Academic Planning. It listed the focus areas primarily based on the pedagogical requirements arising out of the implementation of NEP-2020. Further, it also asked all the Kendriya Vidyalayas to prepare a Vidyalaya-level plan keeping in view the experiences and learnings of the previous session. A similar action needs to be carried out this year too. However, as the normal functioning of schools in the physical mode has commenced from a blended mode, specific attention needs to be paid to the following areas:

- 1. Pedagogical Interventions:** The shift in pedagogical processes as envisaged in NEP-2020 at different stages, viz., Foundational, Preparatory, Middle and Secondary stages needs to be continued in all the KVs. Due stress needs to be given to competency-based learning, critical and creative thinking, integration of subjects, innovation and experimentation etc. Appropriate planning at the level of individual teacher / HM / VP / Principal is to be done by each of the KVs.
- 2. Learning Gaps:** Limitations in the reach and mode of curricular transactions in the previous two academic sessions have led to some learning gaps in the students. Following are suggested to address this immediate concern -
 - Learning gaps are to be identified, class-wise.

P. Mahesh

- Bridge courses including concepts of previous learning needs to be conducted covering learning gaps found in most/many students in the class.
 - Specific small-group / individual remedial measures to be adopted for others
 - These exercises need to be continued on a periodical basis, till such time all these gaps are addressed in all the students of the class.
3. **Foundational Literacy and Numeracy:** NEP-2020 emphasizes the importance of growth and development of children in their early years. Accordingly, it exhorts the school systems to capitalize on the early learning capabilities of children by focusing on the Foundational Literacy and Numeracy. The two focus areas in this regard are:
- **NIPUN Bharat Mission –**
 - Guidelines provided in the Mission document on the areas of pedagogy and monitoring needs to be carried out meticulously.
 - Enabling environment to help the learners attain the Lakshyas / Outcomes to be created and maintained in all the classrooms.
 - NIPUN Bharat Logo and Lakshyas for the respective class should be displayed in all the schools;
 - Print rich and Numeracy rich environment be provided in the classrooms;
 - Age and developmentally appropriate children's literature be made available in the Class Libraries;
 - Audio book for children with special needs like DAISY which is available in CIET website may be downloaded in School computers for use the students.
 - Provide for display of children's work in the classrooms; and
 - Provide spaces for the students to carry out activities and pursue their interests either in the classrooms or in other areas of the school so that the children can do activities of their choice.
 - Assessment of abilities made at the Entry level and that of the attainment of the Lakshyas at the end of the year be studied for recognizing the strengths as well as the areas requiring improvement in terms of the curricular transactions.
 - Assessment of abilities commenced last year for the students of Class I shall be continued this year also.
 - This year it shall be extended to the students of Class 2 students and the rubrics for levels of competencies shall be circulated separately.
 - **Monthly NIPUN meetings be conducted replacing the CMP meeting.**
 - The KVS – NIPUN Bharat Blog available at <https://kvs-fln5.blogspot.com> be effectively utilized by all the stakeholders.
 - **Vidya Pravesh –** This three-month play-based School Preparation module should be implemented for the students of Class I. If need be, Vidyalaya / Cluster level workshops be conducted for effective implementation of the same. <https://ncert.nic.in/pdf/VidyaPravesh>.
 - Resources like Barkha Series which is developed by NCERT may be made available in school to enrich reading capacity of students.
4. **Competency Based Assessment:** NEP-2020 places a strong emphasis on conceptual understanding, creativity and critical thinking so that challenges posed by the evolving knowledge landscape can be converted into productive opportunities. Accordingly, the policy advocates shift in the classroom transactions

f. hahru

towards competency-based learning and education. An integral part of such competency-based learning is competency-based assessment. In all the periodical tests and examinations at school level, competency-based questions shall be included :-

- as per CBSE norms for Classes IX to XII; and
- at least 30% of the question paper for Classes III to VIII.

5. **Teaching of Regional Language / Mother Tongue:** The teaching of regional language/mother tongue is provided as an additional arrangement and the same may continue to be facilitated.

However, for children in Primary classes, who may be having difficulty in following English & Hindi instruction, teachers who know their mother tongue may mentor them till they become comfortable with the medium of instructions.

6. **Environment Education and Adoption of Sustainable Practices:** In order to create an awareness about the environment and to help them understand and appreciate how their actions affect the environment, it is important to engage the students in various hands-on activities. Such activities should be preceded and followed up with meaningful discussions in the class. All the KVs may take up the following in this regard:

- Establish Eco clubs and explore possibilities for providing exposure to the students from the Institutions of repute and experts available in the neighborhood;
- Take up activities like gardening, tree plantation, nature walks, bird watching etc. and include these as part of the School plan; and
- Introduce various sustainable practices like waste recycling, water and energy conservation etc.

7. **Pre-Vocational Education Programme (PVEP):** NEP-2020 highlights the importance of Pre-Vocational Education Programme at the Middle stage (Classes VI to VIII), which would enable students to make informed choices while selecting their subjects in higher classes as these would provide an exposure to the variety of occupations available in the world of work. Following points be noted for inclusion in the Academic Plan of the Vidyalayas:

- Every student will take a fun course, during Grades 6-8, that gives hands-on experience of a sampling of important vocational crafts, such as carpentry, electric work, metal work, gardening, pottery making, etc., as decided by States and local communities and as mapped by local skilling needs.
- Provision in this regard already existing in Article 132 of Education Code of KVS and subsequent orders/instructions issued from time to time be followed.
- KVs and ROs have already done an exercise of identification of courses /skills along with trainers on the basis of choice /local needs of students /parents
- Further, skill modules are being offered by CBSE in middle Classes (Classes VI/VII/VIII) and board does not charge any fee from the school for offering skill modules in these classes. Details are available of CBSE website (Academic Website- Skill Education) at cbseacademic.nic.in/skill-education.html.
- Interesting activities for students should be planned for bag-less days.

P. Mahan

8. **Utilization of Resources:** Now that the regular functioning of schools have commenced in the physical face – to – face mode both the physical and digital resources have to be effectively utilized.
- Physical infrastructure including laboratories, library and facilities for games & sports need to be examined for safety and hygiene.
 - Digital resources available in the KVs and the skills honed by the teachers during online engagement of students need to be continued to supplement and enhance the learning of students.
9. **CCA:** Co-curricular activities have been an essential part of transactions in KVs. A renewed focus is required in this regard as the schools have started functioning normally in the physical mode now. Detailed plan and implementation is required to provide opportunities for participation of larger number of students in these activities. Activities which instill creativity, enhance communication skills and leadership qualities should be focused on.
10. **Overall Well-being of students:** Students had only limited opportunities for face – to – face interactions in the immediate past. Efforts were made to attend to the emotional and psychological needs of students in that scenario of limitations. Such efforts to address to the emotional and psychological needs of students need to be carried forward so that healthy developments of children can be supported.

In addition to the above points to be included in the planning of activities for each of the KVs, a Calendar of Activities has also been designed and enclosed for effective implementation and monitoring of curricular transactions.

You are hereby requested to convey these to the KVs in your region and ensure the progress of KVs to the expectation of all stakeholders.

Yours faithfully,

(Piya Thakur)

Joint Commissioner (Acad)

Encl: As stated above.
